N.B. The team have recently begun using a new module on Epitaph to perform invoicing, enabling these to be completed more quickly without double inputting of data. There is however an error in which when the transaction is pulled through from Epitaph to our Finance module it sets the invoice date as 01/04/2025. This is the reason why some funeral director debtors are listed as 90+ days when in fact they are current invoices. We are in discussion with Edge on this and the error will be resolved imminently.
